3. Find your Norton Security plan and click **Download** to access the Norton LifeLock login page.
4. Create or Log into your Norton Account.

Welcome to NortonLifeLock

For the optimal experience with your Norton service, a Norton account is required.

If you don't already have a Norton account, select [Create an Account](#). Otherwise, sign in to your existing Norton account now.

The image shows the Norton Sign In page. At the top is the Norton logo. Below it is a white card with the heading "Sign In". There is a text input field for "Username / Email" and a "Continue" button. Below that is an "or" separator, followed by two social login buttons: "Sign in with Apple" and "Sign in with Google". At the bottom of the card, there are links for "Forgot username?" and "New user? Create an account.". Below the card, it says "Norton and LifeLock are part of Gen™.". At the very bottom, there is a small disclaimer: "This site is protected by reCAPTCHA and the Google Privacy Policy and Terms of Service apply." and a footer with "Legal Privacy" and a chat icon.

5. On the **Get Started** screen, you have the option to download the file or send the download link to install on a different device. Click **Agree and Download**, to start the download.

Install on another device

Send Download Link

7. When the file completes downloading, open the location where the file is saved. Double-click on the downloaded file to start the installation process. Once installed, open the application to access the Norton services.

Download Norton Small Business on an iPhone

1. Sign in or Register on myhughesnet.com.
2. Click on **Account > My Services & Plan**.
3. Find your Norton Security plan and click **Download** to access the Norton LifeLock login page.

4. The Norton page will open in your phone's web browser. Create an account or Sign in to access your subscription.

5. If prompted, enter or confirm the PIN to continue.

Note: You can find your PIN by logging into your myhughesnet.com account and navigating to **Account > My Services & Plan** to find your Norton subscription, or in the Optional Services email you received after purchasing Norton.

GET STARTED

ENTER YOUR PIN CODE

 A text input field for a 13-digit PIN code, with a yellow arrow button to the right.

Enter the 13-digit PIN code you received from your service provider. If you do not have a PIN code, contact your service provider for assistance.

Windows XP/Vista users: [Click here](#) to view important service-related information.

- You have the option to download the app from the App Store or send a link to install the app on another device. To download the app, click **Download on the App Store**.
- Download and install the **Norton 360 Security & VPN** app from the App Store.

- Open the App and click on **Redeem a Subscription** and then **Sign in with Norton account**. Please enter the PIN, if requested to activate the Norton 360 App with your subscription.

10. Click on **Security** to setup **Internet Security** and access the security scan report.

Download Norton Small Business on an Android Phone

1. Sign In or Register on **myhughesnet.com**.
2. Click **Account > My Services & Plan**.
3. Find your Norton Security plan under **Optional Services** section and click **Download**.
4. Create an account or Sign in on the Norton login page.
5. If prompted, enter, or confirm the Norton PIN to download and install the **Norton 360 Mobile Virus Scanner** app from the Play Store.

Note: You can find your PIN by logging into your myhughesnet.com account and navigating to **Account > My Services & Plan** to find your Norton subscription, or in the Optional Services email you received after purchasing Norton.

6. Activate the app by signing in your Norton account or click on **Redeem a subscription** and enter the PIN to access Norton services.
